C. Project Description. Describe all aspects of the operation including mining, milling, and exploration methods, materials, equipment, workforce, construction and operation schedule, power requirements, how clearing will be accomplished, topsoil stockpile, waste rock placement, tailings disposal, proposed number of drillholes and depth, depth of proposed suction dredging, and how gravels will be replaced, etc. Calculate production rates of ore. Include justification and calculations for settling pond capacities, and the size of runoff diversion channels.

It is proposed to Finish Maped portion (In Red) in Years 2011 and 2013 - west portion (Light Blue) will be mined in year 2014 - 2018 m/L. waste will be placed in 3 acres to East and Later Fill 1st pit (Red) topsoil will be stockpiled and used in Reclamation

D. Equipment and Vehicles. Describe that which is proposed for use in your operation (Examples: drill, dozer, wash plant, mill, etc.). Include: sizes, capacity, frequency of use, etc.

EXCAUATORS, LOADERS, HAUL TRUCKS, BullDozers ect
may be used on premesis only ocasionally if exer
will Drill be on SITE

E. Structures. Include information about fixed or portable structures or facilities planned for the operation. Show locations on the map. Include such things as living quarters, storage sheds, mill buildings, thickener tanks, fuel storage, powder magazines, pipelines, water diversions, trailers, sanitation facilities including sewage disposal, etc. Include engineering design and geotechnical information for project facilities, justification and calculations for sizing of tanks, pipelines and water diversions, etc.

ONLY MOUABLE Structures such As porta-poty or Shelter From MINSTORM

V. ENVIRONMENTAL PROTECTION MEASURES (SEE 36 CFR 228.8)

A. Air Quality. Describe measures proposed to minimize impacts on air quality such as obtaining a burning permit for slash disposal or dust abatement on roads.

Air quality Should Not Be Affected

- B. Water Quality. State how applicable state and federal water quality standards will be met. Describe measures or management practices to be used to minimize water quality impacts and meet applicable standards.
 - 1. State whether water is to be used in the operation, and describe the quantity, source, methods and design of diversions, storage, use, disposal, and treatment facilities. Include assumptions for sizing water conveyance or storage facilities.
 - 2. Describe methods to control erosion and surface water runoff from all disturbed areas, including waste and tailings dumps.
 - Describe proposed surface water and groundwater quality monitoring, if required, to demonstrate compliance with federal or state water quality standards.
 - 4. Describe the measures to be used to minimize potential water quality impacts during seasonal closures, or for a temporary cessation of operations.
 - If land application is proposed for waste water disposal, the location and operation of the land application system must be described. Also describe how vegetation, soil, and surface and groundwater quality will be protected if land application is used.

C. Solid Wastes. Describe the quantity and the physical and chemical characteristics of solid waste produced by the operation. Describe how the wastes will be disposed of including location and design of facilities, or treated so as to minimize adverse impacts.

GArBAGE WIll BE removed periodically

D. Scenic Values. Describe protection of scenic values such as screening, slash disposal, or timely reclamation.

reclamation will be completed as minimy progresses

E. Fish and Wildlife. Describe measures to maintain and protect fisheries and wildlife, and their habitat (includes threatened, endangered, and sensitive species) affected by the operations.

Avers will be rechained with species that will benefit wildhile

F. Cultural Resources. Describe measures for protecting known historic and archeological values, or new sites in the project area.

None KNOWN

- G. Hazardous Substances.
 - Identify the type and volume of all hazardous materials and toxic substances which will be used or generated in the
 operations including cyanide, solvents, petroleum products, mill, process and laboratory reagents.

Petrolium products - used oils will be Taken OFF site

 For each material or substance, describe the methods, volume, and frequency of transport (include type of containers and vehicles), procedures for use of materials or substances, methods, volume, and containers for disposal of materials and substances, security (fencing), identification (signing/labeling), or other special operations requirements necessary to conduct the proposed operations.

Used oil - 4-6 Times per season oil will be changed and used oil Taken to sake Location offsite

3. Describe the measures to be taken for release of a reportable quantity of a hazardous material or the release of a toxic substance. This includes plans for spill prevention, containment, notification, and cleanup.

Spills will Be Buried well Away From water or waterways

H.	Reclamation.	Describe t	the a	annual	and	final	reclamation	standards	based	on t	he antic	cipated	schedule	for	construction
	operations, and														
	revegetation plan														
	closing ponds and	a eliminating :	stand	aina wa	ter. a	Ilnal	surface shar	ing plan, ai	na post	opera	ations m	onitorin	a and mai	ntena	ance plans.

IT is planed for Reclamation To Begin As OLD Holes Are Filled, ground And Topsoil Returned (Please NOTE. Some Areas Have Little To No Topsoil Now)

VI. FOREST SERVICE EVALUATION OF PLAN OF OPERATIONS

A. Required changes/modifications/special mitigation for plan of operations:

B.	Bond. Reclamation of all disturbances connected with this plan of operations is covered by Reclamation
	Performance Bond No, dated (mm/dd/yy), signed by (Principal) and (Surety), for the
	penal sum of This Reclamation Performance Bond is a guarantee of faithful performance with the terms and
	conditions listed below, and with the reclamation requirements agreed upon in the plan of operations. This
	Reclamation Performance Bond also extends to and includes any unauthorized activities conducted in connection with this operation.

The bond amount for this Reclamation Performance Bond was based on a bond calculation worksheet. The bond amount may be adjusted during the term of this proposed plan of operations in response to changes in the operations or to changes in the economy. Both the Reclamation Performance Bond and the bond calculation worksheet are attached to and made part of this plan of operations. Acceptable bond securities (subject to change) include:

- 1. Negotiable Treasury bills and notes which are unconditionally guaranteed as to both principle and interest in an amount equal at their par value to the penal sum of the bond; or
- 2. Certified or cashier's check, bank draft, Post Office money order, cash, assigned certificate of deposit, assigned savings account, blanket bond, or an irrevocable letter of credit equal to the penal sum of the bond.

VII. TERMS AND CONDITIONS

- A. If a bond is required, it must be furnished before approval of the plan of operations.
- B. Information provided with this plan marked confidential will be treated in accordance with the agency's laws, rules, and regulations.
- C. Approval of this plan does not constitute certification of ownership to any person named herein and/or recognition of the validity of any mining claim named herein.
- D. Approval of this plan does not relieve me of my responsibility to comply with other applicable state or federal laws, rules, or regulations.
- E. If previously undiscovered cultural resources (historic or prehistoric objects, artifacts, or sites) are exposed as a result of operations, those operations will not proceed until notification is received from the Authorized Officer that provisions for mitigating unforeseen impacts as required by 36 CFR 228.4(e) and 36 CFR 800 have been complied with.
- F. This plan of operations has been approved for a period of ____ or until (mm/dd/yy) ____. A new or revised plan must be submitted in accordance with 36 CFR part 228, subpart A, if operations are to be continued after that time period.

VIII. OPERATING PLAN ACCEPTAN	ICE
We have reviewed and agreed to comply with all conditions in trequired changes, modifications, special mitigation, and reclamation require	his plan of operations including the ements.
We understand that the bond will not be released until the Authorapproval. Signature of Operator (or Authorized Representative)	orized Officer in charge gives written
	(mm/dd/yy)
IX. OPERATING PLAN APPROVA	
(Name)	(Title)
Signature of (Authorized Officer)	(Date)

Burden and Non-Discrimination Statement

(mm/dd/vv)

According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0596-0022. The time required to complete this information collection is estimated to average 12 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, age, disability, and where applicable, sex, marital status, familial status, parental status, religion, sexual orientation, genetic information, political beliefs, reprisal, or because all or part of an individual's income is derived from any public assistance. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at 202-720-2600 (voice and TDD).

To file a complaint of discrimination, write USDA, Director, Office of Civil Rights, 1400 Independence Avenue, SW, Washington, DC 20250-9410 or call toll free (866) 632-9992 (voice). TDD users can contact USDA through local relay or the Federal relay at (800) 877-8339 (TDD) or (866) 377-8642 (relay voice). USDA is an equal opportunity provider and employer.
